Relevant Experience

Deloitte | Cologne, Germany

Oct 2023 – May 2025

Consultant. Performed numerous cloud transformation projects following an end-to-end approach from conceptual design to implementation with a technical focus on Oracle cloud applications.

- Executed the implementation of an updated financial forecasting process in Oracle EPM Cloud, increasing forecasting accuracy by >25% while reducing resource requirements.
- Led two workstreams from conceptual design workshops to implementation, Go-Live and client handover, resulting in a global roll-out of Oracle EPM software at one of Germany's largest truck manufacturers.
- Enabled HR Planners of a globally operating Truck manufacturer to support 300+ end users of Oracle EPM Cloud, by conducting live trainings, improving first-level support efficiency.
- Managed four workstreams across two client engagements simultaneously, efficiently allocating staffing resources and tracking budgets to meet quality standards.

Porsche Consulting GmbH | Munich, Germany

Feb 2023 – May 2023

Consulting Intern. Consultant on a task force improving outbound logistics performance and ensuring production continuity during the global supply chain crisis.

- Prevented plant shutdowns by onboarding three new logistics partners adding 100 trucks, leading to an additional 4.000+ produced vehicles being converted to sales.
- Supported decision making to expand outbound transportation capacity by \$100M+ through market analyses and setting up reporting standards to track logistics partners' performance.

Muecke Roth & Company GmbH | Munich, Germany

Oct 2022 – Dec 2022

Consulting Intern. Co-created and scaled MRC's Innovation & Venturing branch for clients interested in leveraging corporate venturing opportunities to secure lasting innovativeness.

- Developed new value propositions for corporate-startup-collaboration, creating a new portfolio offering adopted into the company's service line, by validating market assumptions through stakeholder interviews.
- Evaluated over 25 startups to determine investment viability for the MRC startup fund by analyzing KPIs and founder team dynamics resulting in two direct investments.
